

Central Coast GIS User Group

10/08/2008

Minutes

Attendance: Andra Bobbitt, Brady Smith, Debbie Reusser, Eli Adam, Lee McCoy, Pat Clinton, Tim O'Higgins

Current projects include: Metadata, Reports, Fieldwork, Bathymetry points, MapServer, Updating Comprehensive Plan, Cartography, Writing, and Estuary Maps.

Presentations:

1. Tips and tricks included: Copy and Paste raster symbology (download from ArcSripts), coordinate/synchronizing ArcMap and Google Maps.
2. Data sources included: USGS GNIS, NAIP WMS feed, and DNC (digital nautical charts).

Business:

Geography Week is Jan 12-16 for Yaquina View Elementary School. Theme may include Exploring the Americas. ArcExplorer Java Education Edition and Google Earth Tunneling tool were mentioned as options for the computer lab portion. Sign up with Andra Bobbit for more details, meetings and planning coming soon.

The next meeting is Wednesday, December 10th. The location is Siletz. More details to follow.

Map Critiques:

A map based on historical maps was reviewed.
