

Central Coast GIS User Group

1/12/2011

Minutes

Attendance: Amy, Anita, Brady, Eli, Khem, Mara, Meredith, Neal, Scott, Stacy G.

Current projects include: recent vacation travel, veg work, gis to support conservation, historic imagery from the '70s, oceanography with satellite data, near shore sea temperature, GPS→GIS, Clam in Tillamook, 1st tax draft, GPS update, geonetworks, modelbuilder for smartgrid, flex for thin clients, lidar, endangered species GIS, behavior ecology lab work, Alaska fieldwork, phytoplankton bloom monitoring in Oregon.

- Business: Thinking of picnic or after hours CCGISUG meeting sometime in the spring.

Lightening Talks: Brady covered some new things in ArcGIS 10, Khem counted some seabirds with digital imagery, GPS→photolink→geotag→photoshop mosaic with color balancing tool chain.

Q&A: Pie charts on transects and not a number/null values generated substantial discussion and ideas. Also some talk about '39 ODFW/USFWS imagery scans.

GeoQuiz: We got a lot of them.

Next meeting is March 9th at CTSI in Siletz
