

**Central Coast GIS User Group**  
**1/13/2009 12:15-1:45**  
**Location: USFWS, HMSC**

**Agenda**

I. Introductions and quick update on current projects (agenda review also)

II. Regular meeting business (e.g., Upcoming GIS events/conferences, website update, meeting frequency, schedule for the year, next meeting location and presenters or topics, discussions, updates, etc.)

III. GIS Tips & Tricks

Instead of a single presentation, we are inviting you to please bring your best GIS tips & tricks to share with your best GIS friends! Here's a tease of the excitement that awaits you: Eli is planning on talking about GDAL and raster processing. I'll demo the very handy "Zipper" and "Cut Polygon without Selection" ArcMap editing tasks as well as the Timestamper extension.

IV. Map Critiques

Proposed schedule (every other second Wednesday):

Jan 13

March 10

May 12

June 14 (ESRI UC this week)

September 8 (near Labor Day)

November 10 (near Veterans Day)
